**CONVENIENCE:** Avoid unnecessary trips to the pharmacy. Order your prescription refills with a single tap and collect them when they are ready.

**SAFETY:** Reduce the risk of medication errors. Receive clear reminders and access detailed information about every medicine you take.

**PEACE of MIND:** The app automatically tracks your script supplies and alerts you when a refill is due, so you can stop worrying about running out of vital medicine.

**FAMILY CARE:** Easily manage the medications of children, elderly parents, or other dependents using the Carer Mode™.

## MedAdvisor SERVICES

1

### **Automatic Medication List:**

An always up-to-date digital list of all your current prescriptions, dosages, and remaining repeats.

2

### **Take-My-Meds Reminders:**

Customizable daily alerts for when to take specific doses.

3

### **Tap-To-Refill Functionality:**

Pre-order your scripts from your local pharmacy for quick collection.

4

### **Fill-My-Scripts Alerts:**

Automated reminders when a prescription is due for renewal.

5

### **Medication Information:**

Instant access to details about your medicines.

6

### **CarerMode™:**

Manage multiple family members' medications from a single account.
